Excellence in Sound

**J-902 Subwoofer**  
**J-902S Subwoofer System**

Turn up the heat and take your multi-media sound experience to the next level by adding deep, powerful bass response to your computer system. Choose from the J-902S Subwoofer System which includes two satellite speakers or the stand-alone J-902 Subwoofer that connects to most external computer speakers. Both subwoofer and satellite speakers feature controls for volume and power.

**Specifications:**

**J-902S Subwoofer System**

28 watts (41 watts max.) RMS, 35Hz to 15,000Hz frequency response

**SUBWOOFER:**

18 watts (25 watts max.) RMS, 35Hz to 300Hz frequency response

**SATELLITES:**

5 watts (8 watts max.) RMS per channel, 100Hz to 15,000Hz frequency response

### **J-590 Powered Speaker**

Connect the J-590 to your computer, crank up the volume, and hear software the way it was meant to be heard. Designed to sound as good as they look. Features include: Controls for bass, treble, volume, and power, and a headphone jack for private listening.

**Specifications:** 14 watts (30 watts max.) RMS per channel, 50Hz to 20,000Hz frequency response, 4" woofer, 1.5" tweeter

### **J-340 Powered Speaker**

Great sound at an economical price! The versatile J-340's are compact speakers that can be easily mounted on your monitor or placed on the desktop. Features include: Controls for volume, bass, and power. Includes monitor mounting kit. Monitor not included.

**Specifications:** 5 watts (8 watts max.) RMS per channel, 100Hz to 15,000Hz frequency response, 3" cone driver

### **J-688 Powered Speaker**

The unique cabinet design of the J-688 produces rich, deep, high quality sound normally found in speakers twice the price. Features include: Large, easy-to-use control knobs, a headphone jack for private listening, and a microphone input jack for presentations or a second audio input.

**Specifications:** 14 watts (30 watts max.) RMS per channel, 50Hz to 20,000Hz frequency response, 4" woofer, 2" tweeter

# Jazz Speakers.

## Excellence in Sound

*"Slick, black, and straight to the point. The J-902 subwoofer/satellite system is a great investment for the audiophile in all of us."*

**-COMPUTER GAME REVIEW - September '95**

*"Not only is the J-688 a powerhouse, but the low end is very impressive, and the high end can get screechingly loud."*

**-COMPUTER GAMING WORLD - September '95**

*"Bigger and badder than your average speaker. The J-590 will make your neighbors whimper."*

**-COMPUTER GAME REVIEW - August '94**

### Not Just For Computers

Our speakers are not only designed for computers but can be used with personal CD players, cassette players, portable stereo systems, televisions, VCR's, or any device with a audio line-out or headphone jack.

### Jazz Quality

All Jazz speakers are magnetically shielded to protect data on hard drives and floppy disks and to prevent damage to your monitor or television. Jazz speakers are covered by a full two year warranty.
